SCALPEL BLADE REMOVER

Qlicksmart
STENNING

Designed for single-handed operation, this device combines the process of removal, containment and disposal of scalpel blades in one simple procedure. Once removed the blade has no further human contact. It is designed for use with most # 3, #4, # 7 and #9 scalpel blades. It comes with a progressive counter and will remove a maximum of 100 blades and includes an automatic shut off mechanism to prevent over filling.

A universal wall bracket is available separately that can be used to mount the device on a wall, bench or trolley.
